

Flex sit-stand chair

The Flex sit-stand solution is suitable for industrial workstations where people work standing up, or vary between a standing and sitting position. An ergonomic standing chair enables the user to stand for long periods of time without their feet getting tired, because using Flex reduces the pressure on the feet by 60%. This is good for the hips and knees! Suitable for employees of different shapes and sizes.

- A practical anti-slip seat that rotates 360°
- Height adjustment for the seat and footrest ring
- The polyurethane (PU) surface is durable, washable, and easy to clean
- Suitable for use in production environments in which oil, grease, and mild acids and bases are handled, or in which moisture or sparks occur
- Also available with ESD protection
- 10-year warranty
