

Tool storage system

The tool storage system is a handy storage solution comprising a sturdy frame and perforated panels. The system only takes up 2 m² of floor space and provides at least 16 m² of storage space for tools and other items. Stands firmly on the floor without mounting. The bottom of each panel has a castor, to support and facilitate movement.

- A freestanding system, no need to mount to the floor
- 2 m² of floor space and up to 40 m² of storage space
- 50+ different tool hooks and brackets
- 4 panels come as standard; extra panels also available
- Width 1050 mm, depth 1035 (2035) mm, and height 2125 mm
- Maximum load per panel 100 kg, maximum total load for the system 1000 kg
