

Carton trolleys

Easy-to-move, sturdy trolleys for packaging boxes and cartons. Three different models to choose from. The high trolley can store a large numbers of different boxes, the low trolley with a push handle holds even the largest packaging boxes. Very low carton trolleys can be positioned out of the way, underneath a workbench, for example.

- All the models have a light grey, powder-coated steel frame (RAL 7035), and the other parts are also made of steel
- Four swivel castors, two of which have brakes
- For the high carton trolley, HCT410, the standard package includes shelves with height adjustment and dividers with stepless adjustment, and the load capacity is 150 kg. Dividers are also available as accessories.
- The low carton trolley, LCT610, has a push handle and three dividers that can be positioned front to back or side to side, and the load capacity is 150 kg
- The floor level carton trolley, built from SPM packing material shelf, has 8 fixed dividers (4+4), and the load capacity is 60 kg. This trolley can be positioned out of the way, underneath a workbench, for example.
