

Heavy-duty trolley

As the name implies, the heavy-duty trolley is an ideal solution for moving heavy loads. The frames and castors of all the models can withstand extremely heavy loads, and the total load capacity of the standard trolley is up to 600 kg. Four different combinations are available, ranging from a simplified model with 2 shelves to a highly customised solution. The working height is approximately 900 mm, depending on the model.

- A sturdy, powder-coated (RAL 7035) steel frame
- Four different combinations are available
- The total load capacity of the standard model is up to 600 kg
- The load capacity of the shelf is up to 400 kg
- Some accessories are available
- Two fixed castors (⌀ 100 mm) and two swivel castors (⌀ 100 mm) with brakes
