

Storage, picking and small bins

Wide selection of storage bins, ranging from heavy item storage and handling solutions to organising and using very small parts and components.

- Durable storage bins with handles stack firmly together and the dimensions match the metric shelving system
- Picking bins can be mounted on a wall with a bin rail, or placed on a workbench mounted on a benchtop rack. They stand firmly on top of a workbench, and reaching for the components will not tip them over. Rounded inner corners and a specifically designed front edge make grabbing parts faster
- Transparent small bins are suitable for workbenchs or drawers, self-adhesive labels come as standard and dividers are available as accessories
- All the above bins are also available with ESD protection

Storage, picking and small bins (18)
