

Saddle chairs

Treston saddle chairs are of high quality and ensure a proper ergonomic position and free movement when sitting. As work chairs, they are especially suitable for use in industrial environments. Sitting on a saddle chair creates a 135-degree angle between the thighs and the upper body, which improves circulation in the hip and knee joints.

- Adjustable seat height (57.5–82 cm)
- Tilt adjustment for the seat
- Fabric, faux leather, and leather upholstery options
- Without a load, the wheels brake
- Also available with ESD protection

Saddle chairs (3)
