

Shelf bins

The shelf bin family offers 11 sizes to suit a variety of storage needs. Available in bio-based plastic, 100% recycled plastic, or classic plastic, these bins are designed for durability and flexibility. They stack securely on top of each other — even bins of different lengths when the width is the same. Straight sides maximize capacity, while optional side-to-side dividers keep contents organized. Each bin comes standard with a label and protective cover. Designed to fit all metric shelves, cabinets, and industrial workstations, Treston shelf bins ensure efficient and versatile storage.

- 11 sizes: depths 300, 400, 500, 600 mm; three widths
- Material options: BiOX bio-plastic, ReBOX recycled plastic, classic PP/PS
- Wavy bottom for easier picking
- Label with protective cover included
- Optional dividers & barcode labels
- Colour-coded and transparent bins available
- ESD-protected models available
