

# Spacemisers

Freestanding turntable units take up very little floor space, but help maximise the capacity to store different kinds of parts. The units come in many sizes, and models are available both for small-parts cabinets and for storage bin cabinets, which are larger. The type of bin cabinet can be chosen based on the user's own needs, and these must be ordered separately. A bench-top version is also available. Turntable units are suitable for use in spaces such as production facilities, stores, and warehouses.

- The small-parts turntable unit takes up only 0.25 m2, and has room for 12 cabinets
- The storage bin turntable unit takes up only 0.64 m2, and has room for 16 cabinets
- Up to 720/256 cabinets, and the possibility for more than 1,000 compartments
- The units are sturdy and stay in place; the load capacity is 400kg/800 kg
- Easy to assemble; some models can even be put together without tools
- Models with ESD protection are also available
